Transcendent Recorders

Backup by Time

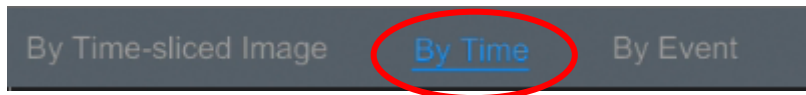

To backup video on the Transcendent DVR/NVR Series you first need to click on start

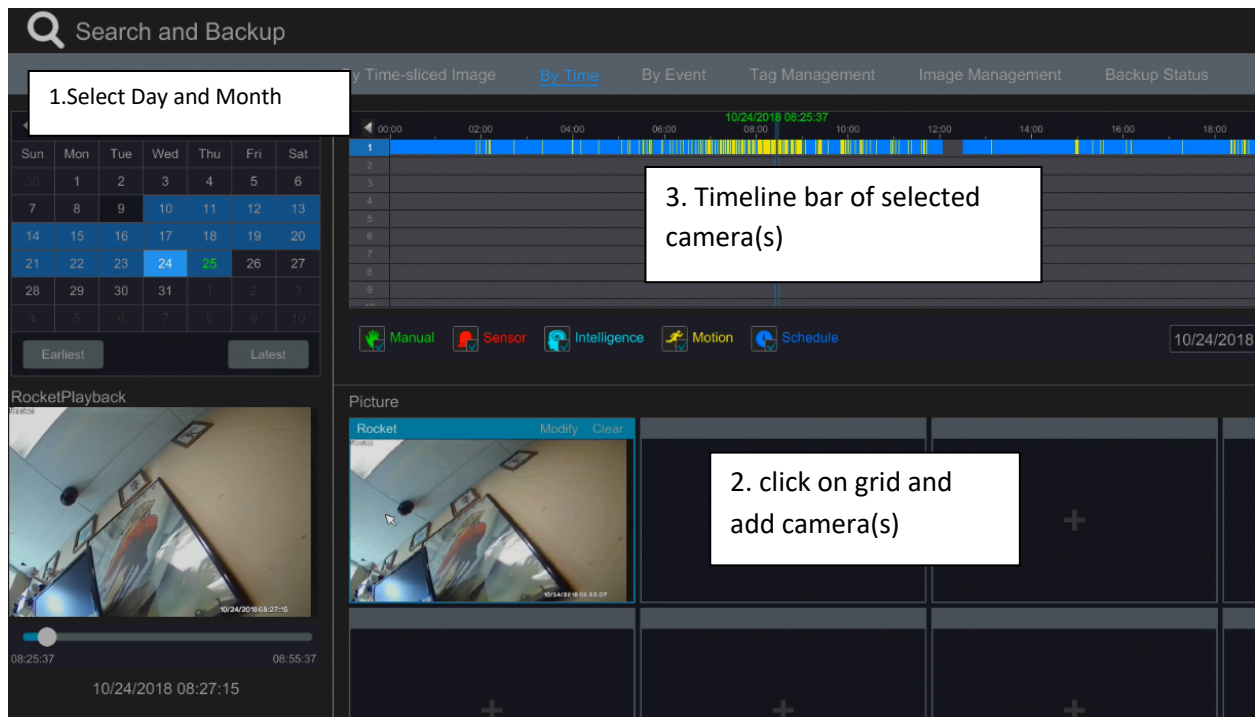

Select Search and Backup

The Transcendent DVR/NVR has several ways to do backup, Example: by time

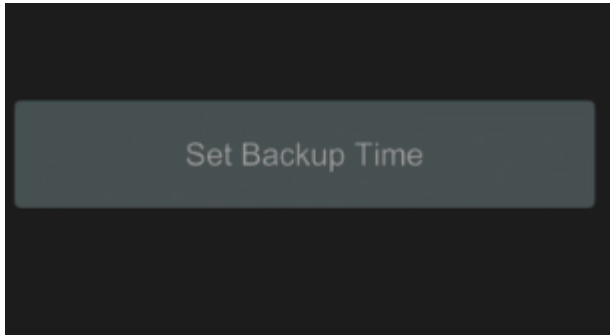

Select Date from Calendar on Left top corner. Under Picture View grid, click on one of the blocks and add camera(s). This will bring up a timeline bar of that camera(s) from the date selected.

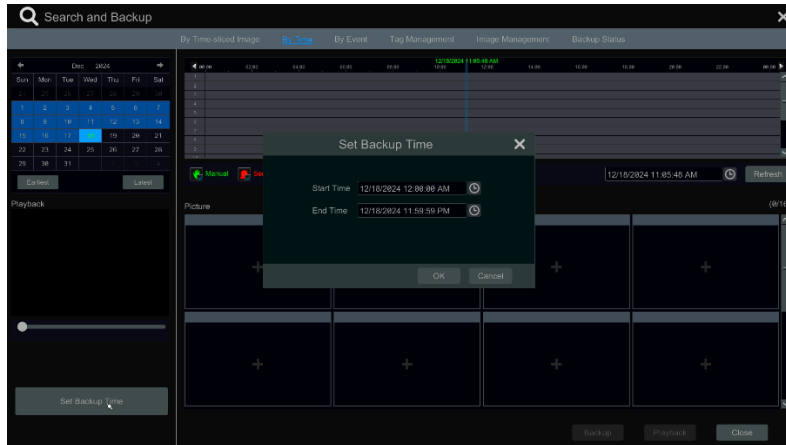

Backup from Set Backup Time

Click on Set Backup Time in the lower left hand corner

Manually enter Start and End time by clicking on clock icon.
Then click ok.

This will bring up the backup information in the lower lefthand corner

Backup Information

Start time: Start of backup time

End time: End of Backup time

Duration: displays length of video you are requesting.

Data Size: displays how much storage space it will take on USB.

Once information is entered, click on backup on bottom right corner.

Backup Information Start Time: 10/24/2018 06:43:27 End Time: 10/24/2018 08:36:10 Duration: 1h 52m Data Size: 1.58GB	1. Enter start by clicking on clock icon. 2. Enter end by clicking on clock icon. Duration: length from start to end Data: size of file to be copied	3. Click Backup Backup
